SCHEDULE A

DESCRIPTION OF PROJECT

PURPOSE

PROBLEM STATEMENT:

Nationally in 2020, there were over one million drivers arrested for driving under the influence and over 11,000 people lost their lives to impaired drivers. It is estimated that when an impaired driver becomes involved with the legal system for the first offense, they have actually driven under the influence at least 80 times before getting caught. The first offense is a predictor of existing risk. One third of all first-time offenders will be arrested for a subsequent DUI. Repeat offenders pose a danger to law enforcement officers as well as to the public sharing the roadways.

The Manhattan Institute published a report indicating that there is a large body of evidence showing excessive alcohol consumption promotes many types of crime beyond a DUI, including assaults, public disorder and other types of quality-of-life crimes. It is important for the DUI court to recognize the level of dependence on alcohol in an offender, and to help the participant to recognize when their alcohol consumption habits put them at risk for continued involvement with the legal system. Policies aimed at reducing DUIs have had spillover effects into other categories of crime.

PROBLEM

Most impaired drivers are not sorry they offended; they are sorry they were caught. Early intervention can help them understand their motivations and take the first steps towards changing their attitudes around driving while under the influence of an intoxicating substance. In Nevada, most educational programs to which first-time offenders are sentenced do not contain evidence-based components that could change behaviors related to drinking and driving. By the time an offender recidivates to the level of a felony DUI, much damage has been done to their lives and to the community at large. Thousands of dollars and years later, when those repeat offenders have undergone treatment and supervision through the specialty court system, they will exclaim at graduation that they wish they had received that attention the first time they offended. Reno Justice Court believes a first-time offender deserves equal access to treatment as an early intervention.

Within the established Behavioral Health Continuum of Care recommended by the federal Substance Abuse Mental Health Services Administration (SAMHSA) lies an indicated level of prevention addressed through providing "early intervention". The American Society of Addiction Medicine (ASAM) has established Levels of Criteria, a strength-based multidimensional assessment that addresses the patient's needs, obstacles and liabilities, as well as the patient's strengths, assets, resources and support structure. The lowest level of treatment in the ASAM criteria is level 0.5 – early intervention. This particular level of treatment is the most neglected across our state, and which is most critical to the first-offender DUI population.

Pursuant to NAC 483.782, first time DUI offenders over the age of 21 with a BAC under a 0.18 are not required to obtain a substance use disorder evaluation. They are only required to complete an 8-hour education course approved by Nevada's Department of Motor Vehicles. DMV does not require the approved programs use evidence-based curricula, or to be conducted live, with guidance and interaction between the instructor and the participant. The purpose of the project is to conduct a pilot to assess outcomes from presenting evidence-based material to DUI Court Participants which is in addition to the curricula standards established through NAC 483.782. The project targets first time DUI offenders who through the current standard are not provided with material that leads to self-realization and behavioral change. The program will provide, free of charge, evidence-based curricula to a voluntary "test group" of participants and seek to document and establish efficacy in lowering rates among first time offenders.

Live, evidence-based curricula with synchronous interactive instruction costs significantly more to offer than many of the pre-recorded, mass-produced, unsupervised, online videos currently approved by Nevada Department of Motor Vehicles (DMV). It also is less convenient and takes longer to complete. Therefore, this grant is necessary to incentivize participants to complete the longer and more involved program.

The Court will offer first DUI offenders the choice of entering a test group free of charge to them, in exchange for their full cooperation in the test. Half the first DUI offenders will be the control group, who pursue their educational requirements as currently prescribed by Nevada Statute. Each group will receive three surveys at 0, 6 and 12 months and the results of those surveys will be compared, and conclusions drawn. The Court will contract with an independent research institution to develop

the methodology, collect the data and produce the report on outcomes.

COUNTERMEASURES:

Reno Justice Court will use the following countermeasures as defined in NHTSA's "Countermeasures That Work , 10th Edition."

Section 1. Alcohol- and Drug-Impaired Driving:

Chapter 3. Deterrence; Prosecution and Adjudication

3.1 DWI Courts

Chapter 4. Deterrence: DWI Offender Treatment, Monitoring, and Control.

4.1 Alcohol Problem Assessment and Treatment

The court also remains true to the 10 Guiding Principles set out by the National Center for DWI Courts (NCDC) which establishes a model compliance checklist proven to produce best outcomes.

https://www.dwicourts.org/wp-content/uploads/Guiding_Principles_of_DWI_Court_0.pdf

GOALS:

1. Reduce recidivism of drivers under the influence of an intoxicating substance.
2. Establish efficacy of ASAM Level 0.5 early Intervention for inclusion in standard DUI curricula.
3. Evidence gathered can be used to convince Judges, DMV Administrators or Legislators to require the State to adopt and implement evidence-based programs to reduce recidivism.

OBJECTIVES

MEASUREABLE STEPS / TIMELINE:

1. Incentivize 100 defendants to attend an evidence-based ASAM 0.5 early intervention program.
2. Collect data on outcomes and report initial findings to the Office of Traffic Safety by October 30, 2023.
3. Follow 1200 participants for three years after course completion to establish recidivism data.
4. Grant funds shall be expended for the purposes and budget specified herein.

TIMELINE:

The timeline is the federal grant year beginning October 1, 2022, through September 30, 2023. Upon the release of funds and the authorization to proceed, the Reno Justice Court will begin the process of establishing a test group and providing evidence-based curricula. As each participant completes their program, the outcomes will be compared with those participants who were provided the usual options for education.

SELF SUSTAINABLE:

This pilot project will incentivize participants through the offer of a fully funded class , an expense that is normally borne by the participant as part of the sentence. The continuance of the program may depend on some future funding, but the hope is that the established success of the curricula will impel participants to choose it over the old programs.

ACTIVITIES:

1. On average there are 200 first offense DUI's that come through the Reno Justice Court a year. The option of entering the evidence-based pilot program will be offered to half of the first-time DUI offenders with the incentive of going through the program free of charge. The other half would be able to select one of the one hundred or so DMV approved online prerecorded, non-evidence-based programs as currently prescribed by Nevada statute, and for which they will shoulder the associated costs. Additionally, the court will use assessment tools to identify factors in the participants that may point to more serious underlying factors in their behavior. The judge will work to keep the test group and the control group equally comprised for accurate comparison.
2. The pilot program will use an evidence-based curriculum from the Change Companies, approved through the DMV. It will also be synchronous (live) and a minimum of 12 hours in duration completed over two to three consecutive days.
3. An independent evaluator will survey the participants and follow their recidivism at yearly intervals to gauge the effectiveness of the programs.
4. The educational program will be carried out by two providers approved through the DMV: Mickey Yasmer of Advanced DUI and Craig Merrill of Sierra Counseling.
5. The program activities will tie to the objectives to help determine recidivism and the factors around substance use and abuse.
6. In the spirit of the Federal Office of Management and Budget Memorandum M20-26, the Nevada Office of Traffic Safety (OTS) recognizes the need for flexibility to be provided in response to the COVID-19 pandemic; it's effect on public health and the need for potential changes of activities in the FFY 2022 grant-funded projects. If the subrecipient is unable to fulfill the stated objectives and/or activities in any manner in this project, the subrecipient must contact the OTS program manager immediately and discuss alternate plans or a potential change order. All Federal and State regulations will apply.

OTHER REQUIRED ACTIVITIES:

All sub-recipients are required to:

1. Hold a press conference or submit press release to local newspaper(s) detailing the program, funding source, goals and objectives and the probable outcome, within 30 days of receipt of Authorization to Proceed (ATP).
2. Track, account for and report all in-kind contributions pertaining to this project. Vehicle operation and maintenance, in addition to officer and supervisor salaries/benefits when not in a grant overtime mode, are examples of in-kind contributions.
3. Submit monthly progress reports detailing the status of each objective and activity by the 15th of the following month, as well as final *Annual* report summarizing the project's accomplishments/shortcomings within 30 days of end of grant. **Progress reports should include** copies of any reports, documents, press releases, and print media coverage related to the grant project.
4. Claims for reimbursement must be submitted monthly for any expenses incurred and paid during that time period. If expenses are for personnel, a Payroll Certification Report must also be completed and submitted.

All law enforcement agencies are required to also:

1. Report motor vehicle fatality data to Nevada's Fatality Analysis Reporting System (FARS) analyst at the Nevada Office of Traffic Safety, 107 Jacobsen Way, Carson City NV 89711, fax: 775-684-7486 or fars@dps.state.nv.us
 - The data gathered by the States to perform FARS analysis is also used by the States when applying for federal highway incentive grants.
 - FARS data is the only census data of all fatal traffic crashes in the U.S. and it is used for many performance measure goals accepted by the States, NHTSA and Federal Highway Administration (FHWA).

NHTSA places the following requirements on the State Office of Traffic Safety to:

- ✓ Provide for the collection of specific data on all reportable traffic fatalities that occur within each jurisdiction (the fifty states plus the District of Columbia, and Puerto Rico);
 - ✓ Report basic information on every motor vehicle crash with reportable fatalities within specified time frames;
 - ✓ Report all required information on each such crash within a specified time frame and;
 - ✓ Encourage the use of the FARS data by members of the traffic and motor vehicle safety community as an important resource for decision making and policy development.
 - ✓ To ensure data currency, OTS must report basic information on each crash/fatality within two weeks of the crash/fatality; and to report on basic information on each crash/fatality during a holiday period within one day of the end of that holiday period. All data must be entered using the FARS microcomputer data entry (MDE) system within 90 days following the crash/fatality.
2. Send motor vehicle crash reports per NRS 484E.110, et seq., electronically or manually to the Department of Public Safety/NCATS database, within 10 days after the investigation of the crash and as otherwise required by state law.

EVALUATION:

Reno Justice Court together with the contracted independent researcher will begin collecting data for baseline measures. Data type will be reviewed and approved by OTS Program Manager. This will be an Outcome Evaluation. The objective and the program will be evaluated to determine recidivism. A survey of participants will be conducted to gather data regarding life changes and quality of life around substance use and abuse.

The independent researcher will provide data analysis and a report on outcomes.

The final progress report will include an overall evaluation of the project, achievements, barriers, cumulative statistics and final inventory list of equipment purchased if applicable.

BASELINE DATA:

Evidence based programs have proven effective in reducing alcohol or controlled substance use in peer reviewed studies .
The Reno Justice Court will provide outcome data both from pre/post tests and long-term recidivism provided by the
Administration Office of the Courts.

COORDINATING OTHER AGENCIES:

The Reno Justice Court will coordinate with two Licensed Alcohol and Drug Counselors whose DUI Schools are approved through the DMV: Advanced DUI and Sierra Counseling. The curricula, listed in National Registry of Evidence-based Programs and Practices (NREPP) as evidence based, will be provided by The Change Companies. There will also be coordination with the selected independent researchers, to be determined.

The Court will further coordinate with the Office of Traffic Safety Impaired Driving program .

The undersigned certifies, to the best of his or her knowledge and belief, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into any cooperative agreement, and the extension, continuation, renewal, amendment, or
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying", in accordance with its instructions.

Such activities include both direct and indirect (e.g., “grassroots”) lobbying activities, with one exception. This does not preclude a State official whose salary is supported with NHTSA funds from engaging in direct communications with State or local legislative officials, in accordance with customary State practice, even if such communications urge legislative officials to favor or oppose the adoption of a specific pending legislative proposal.

XIII. CERTIFICATION REGARDING DEBARMENT AND SUSPENSION (applies to SUB-RECIPIENT as well as STATE)

(i) Instructions for Primary Tier Participant Certification

1. By signing and submitting this proposal, the prospective primary tier participant is providing the certification set out below and agrees to comply with the requirements of 2 CFR parts 180 and 1200.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective primary tier participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency’s determination whether to enter into this transaction. However, failure of the prospective primary tier participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default or may pursue suspension or debarment.
4. The prospective primary tier participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary tier participant learns its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms *covered transaction*, *civil judgment*, *debarment*, *suspension*, *ineligible*, *participant*, *person*, *principal*, and *voluntarily excluded*, as used in this clause, are defined in 2 CFR parts 180 and 1200. You may contact the department or agency to which this proposal is being submitted for assistance in obtaining a copy of those regulations.
6. The prospective primary tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR Part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.
7. The prospective primary tier participant further agrees by submitting this proposal that it will include the clause titled “Instructions for Lower Tier Participant Certification” including the “Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction”, provided by the department or agency entering into this covered transaction, without modification, in all lower tier covered

transactions and in all solicitations for lower tier covered transactions and will require lower tier participants to comply with 2 CFR parts 180 and 1200.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR Part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any prospective lower tier participants, each participant may, but is not required to, check the System for Award Management Exclusions website (<http://www.sam.gov/>)
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
10.
